7 DAYS BEFORE THE PROCEDURE

- STOP taking aspirin or aspirin containing products. Tylenol is okay if needed.
- STOP taking iron containing products, such as multivitamin with iron.
- STOP eating foods with seeds, nuts, popcorn, etc.
- STOP eating all green leafy vegetables (spinach, kale, cabbage, lettuce, etc.)

5 DAYS BEFORE THE PROCEDURE

- STOP taking any non-steroidal, anti-inflammatory medications, such as Ibuprofen, Motrin, Advil, Naproxen, Celebrex, etc. Tylenol is okay if needed.
- STOP taking herbal supplements, such as ginger/garlic pills, ginseng, etc.
- Please check with the prescribing physician if on any blood thinners.
- If you are unsure about the medications you are taking, please call your prescribing Doctor's office for clarification.

3 DAYS BEFORE THE PROCEDURE

- STOP ALL SOLID FOOD. You may only have clear liquids starting when you get out of bed in the morning. Please see clear liquid guidelines.
- At 6:00pm drink one bottle of Magnesium Citrate (This may cause diarrhea, mild abdominal cramping, nausea, and fullness.)

2 DAYS BEFORE THE PROCEDURE

- CONTINUE CLEAR LIQUID DIET. Please see clear liquid guidelines.
- At 6:00pm drink the 2nd bottle of Magnesium Citrate (This may cause diarrhea, mild abdominal cramping, nausea, and fullness.)

1 DAY BEFORE THE PROCEDURE

- STOP ALL SOLID FOODS. You may have only clear liquids starting when you get out of bed in the morning. Please see clear liquid guidelines.
- Mix the PEG 3350/Golytely/Nulytely according to the directions on the container and refrigerate.
- At 6:00pm begin drinking the PEG 3350/Golytely/Nulytely at a rate of 8-10 oz every 20 minutes. This will cause diarrhea. Your stool should continue to become lighter until it is yellow/clear in color. **YOU MUST DRINK THE ENTIRE JUG OF SOLUTION.**

Continue on your clear liquid diet until midnight.

ON THE DAY OF YOUR PROCEDURE

- 6 hours prior to your procedure drink the 3rd bottle of Magnesium citrate, and the NOTHING BY MOUTH until after your procedure.

Only blood pressure and heart medications may be taken the morning of the procedure with the smallest amount of water possible. Hold other medications, unless specified by your Doctor.
